PROFESSIONAL SUMMARY

Experienced Software Engineer and Tech Lead with 7.5+ years of expertise in React.js, TypeScript, Redux, Next.js, and Node.js, specializing in building scalable, high-performance, and user-centric web applications. Proven track record of leading cross-functional teams, conducting code reviews, and delivering enterprise-level solutions across Banking, Telecom, E-commerce, and AI domains. Skilled in Agile methodologies, performance optimization, RESTful API integration, Figma-to-code, unit testing (Jest), and CI/CD deployment. Experienced with global clients including AT&T, IBM, and Ingram Micro. Adept at translating complex business requirements into scalable technical solutions while ensuring best practices and on-time delivery.

PROFESSIONAL EXPERIENCE

Tech Lead

05/2025 – Present

Infinite Computer Services — Bangalore

- Leading frontend development of Vicertify — a device certification platform for set-top boxes, Wi-Fi routers, and mesh systems and logs management in I-Lac in Microfrontend Architecture
- Architecting scalable React.js and TypeScript solutions with Node.js, Express.js, and MongoDB
- Conducting daily code reviews, mentoring team members, and defining frontend best practices
- Implementing Tailwind CSS design system ensuring consistent UI across all modules
- Collaborating with stakeholders to translate business requirements into technical specifications

Sr Software Engineer

02/2024 – 03/2025

Tech Mahindra — Bangalore

- Developed multiple modules for Ingram Micro B2B platform: Help Center, Growth Track, Ultra AI, UI-lib, in Microfrontend Architecture
- Built reusable component library (ui-lib) using React.js, TypeScript, and Material UI used across multiple teams
- Implemented unit testing using Jest achieving 80%+ code coverage
- Collaborated with UX designers for pixel-perfect Figma-to-code implementation

Frontend Developer

10/2022 – 01/2024

Nailbiter Research Pvt Ltd — Remote

- Developed AT&T; e-commerce platform — large-scale telecom application serving millions of customers
- Implemented Server Side Rendering using Next.js improving SEO and Core Web Vitals performance
- Built features for mobile phone sales, SIM cards, TV subscriptions, device upgrades, and bill payment
- Used React.js, TypeScript, SCSS, and Next.js to build responsive and performant UI components

System Engineer

04/2021 – 10/2022

IBM — Bangalore

- Developed CCC — mission-critical banking application managing complete customer data for all internet banking
- Built complex data tables and forms using React.js, Redux, TypeScript, and SCSS
- Handled multi-currency account information, upstream and downstream application integrations
- Maintained zero critical production bugs over 6-month period ensuring high system reliability

Software Engineer

06/2020 – 04/2021

Senseforth AI Research Pvt Ltd — Bangalore

- Built Aware — an AI chatbot creation platform with create, edit, delete, and deploy functionality
- Implemented chatbot theme customization, logo selection, and Q&A; configuration features
- Developed embeddable chatbot script deployable on any website using React.js and TypeScript

- Developed Cityinfo (CREJ) — a real estate asset management platform with advanced search
- Built NB Console using Angular for client management and platform access assignment
- Implemented Impulse Tracker for FNCG product analytics using React.js, Ant Design, and Google Analytics

TECHNICAL SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript (ES5/ES6), HTML5, CSS3, SCSS, Redux, Angular
Styling	Tailwind CSS, Material UI, Ant Design, Bootstrap, SCSS
Backend	Node.js, Express.js, MongoDB, REST APIs
Testing	Jest, Unit Testing, Integration Testing
Tools	Git, JIRA, Bitbucket, Confluence, SonarCloud, VS Code, Figma
AI Tools	GitHub Copilot, Cursor AI, ChatGPT, VS Code AI Extensions
Soft Skills	Tech Leadership, Team Collaboration, Code Review, Agile/Scrum, Mentoring

EDUCATION

Master of Computer Application (MCA)

May 2018

Pondicherry University | GPA: 9.1 CGPA

KEY PROJECTS

Vicertify	React.js, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB
Device certification platform for set-top boxes, Wi-Fi routers, and mesh devices — verifies performance, safety, and compatibility standards.	
AT&T; E-commerce	React.js, Next.js, TypeScript, SCSS
Large-scale telecom e-commerce platform serving millions — mobile phones, SIM cards, TV subscriptions, bill payment, account management.	
IBM CCC (Banking)	React.js, Redux, TypeScript, SCSS
Mission-critical banking application managing complete customer data for all internet banking operations with upstream/downstream integrations.	
Ingram Micro	React.js, TypeScript, Material UI, Jest
B2B platform with Help Center, Growth Track, Ultra AI, and reusable UI component library used across multiple teams.	
Aware (AI Chatbot)	React.js, TypeScript, SCSS
AI chatbot builder with create/edit/delete, theme customization, and embeddable script deployable on any website.
